Subj: Progress Evaluation Seminar – MS Students

1. The progress review seminar for MS students was held at SEECs Seminar Hall on 09 & 10 Apr 2014. You were informed about seminar by email well in time. However, it has been observed with concern that you remained absent in the seminar. This is an alarming situation and gives the impression that you are not working on your thesis: thus unbecoming of a NUSTian.
2. You are hereby warned to be more careful and responsive towards your studies in future.
3. You are advised to report to your supervisor ASP and submit following documents to the office of S/HoD not later than 05 Jun 2014.
 - a. Response to this warning letter
 - b. Up to date progress report
 - c. Updated timelines to show your thesis completion duly signed by your supervisor.
4. Please accord priority.
